Residential Solid Waste and Recycling Collection Program Information Guide

Starting in early July, the Town of Golden is commencing curbside collection of single family residential recyclables. The program will include the supply of one roll out 65 gallon container for recycles as well as one 65 gallon container to be used for garbage.

In March of 2011, the Town of Golden elected to provide this service to its residents.

The Town of Golden and the Columbia Shuswap Regional District are excited about introducing this new program that will help residents reach the recycling objectives outlined in the Solid Waste Management Plan.

On alternating Tuesdays single family residences will have recyclables collected at the curb placed in the recycling container.

Garbage collection service pick-up days will not change, but residents will now be required to place their garbage at the curb in the supplied 65 gallon refuse container.

Collection within the Town of Golden will be provided by VP Waste Solutions Ltd. For more information please visit their website at www.vpwaste.com or call 250.439.9479 or 250.439.9679.

Garbage and Recycling Guidelines

- Residents may place one 65 gallon garbage container and one 65 gallon recycling container at the curb on designated collection days.
- Please remember that during the spring and fall, bears are more active in our community as they search for food. It is essential that we are not only aware of these bears, but are proactive in preventing potential conflicts. Store your garbage in a secure shed, garage, or basement unit the morning of your collection day.
- Residential garbage is discard material, substances or objects that originate from single family homes, other than items deemed not eligible for regular disposal.
- Items deemed not eligible for regular disposal would include: recyclables, yard waste, land clearing waste, construction and demolition waste, noxious matter, biomedical waste, large items, car parts, furniture and other items identified as prohibited in Bylaw #1257. A copy of this bylaw can be found on the Town's website: www.golden.ca.
- Residential recycling which is eligible to be collected must be contained within the 65 gallon recycling container with the lid fully closed.

Frequently Asked Questions

- q. May I opt out of the program?
 - a. No, this is a mandatory program.
- q. Is my house included in the program?
 - a. All single family residential properties are included in curbside recycling.
- q. When does the service start?
 - a. Collection will start early July.
- q. Where do I place the containers if I don't have a curb?
 - a. All containers must be level to the street and not on a snowbank.
- q. Is it the town's responsibility if my garbage is knocked over or strewn around?
 - a. Residents are responsible for scattered material due to animals, birds or weather as per Bylaw #1257. If the garbage is due to improper storage of waste or recycling, or happening during the emptying of the container due to the contents of the container, it is the responsibility of the resident. If the mess is caused by the service provider, it is the service providers responsibility to clean up.
- q. What time will my containers be collected?
 - a. Your containers must be placed at the curb before 8:00 a.m. but not before 6:00 a.m. for collection.
- q. If I miss a week, may I place double the amount out the following week?
 - a. No, only one (1) 65 gallon garbage container and one (1) 65 gallon recyclables container will be permitted on alternating Tuesdays.
- q. Will this service be included on my tax bill?
 - a. The program is included as a part of your annual utility bill issued in January of each year.
- q. Where do I get the containers from?
 - a. The containers will be provided to you and remain the property of the Town of Golden.
- q. What colour are the containers?
 - a. The container for garbage is green; for recyclables it is blue. Please never mix contents of the containers.
- q. Why can't we use our old garbage containers?
 - a. This is an automated collection system that requires a specific type of container that the trucks can pick-up with a mechanical arm.
- q. Can I heap my waste or recycling in order to get more in on collection day?
 - a. No, the lid must be fully closed in order for the bin to be collected.

What to Recycle

Place all your clean recyclables out for collection on your scheduled day. No bags, and no pre-sorting needed. All materials must fit in cart with lid closed.

Tin Cans <ul style="list-style-type: none"> • All tin cans. • Empty and rinse. • Labels are ok. • Keep lids attached or place in can and flatten.
